"Microbes" (2015, sixty paged book)

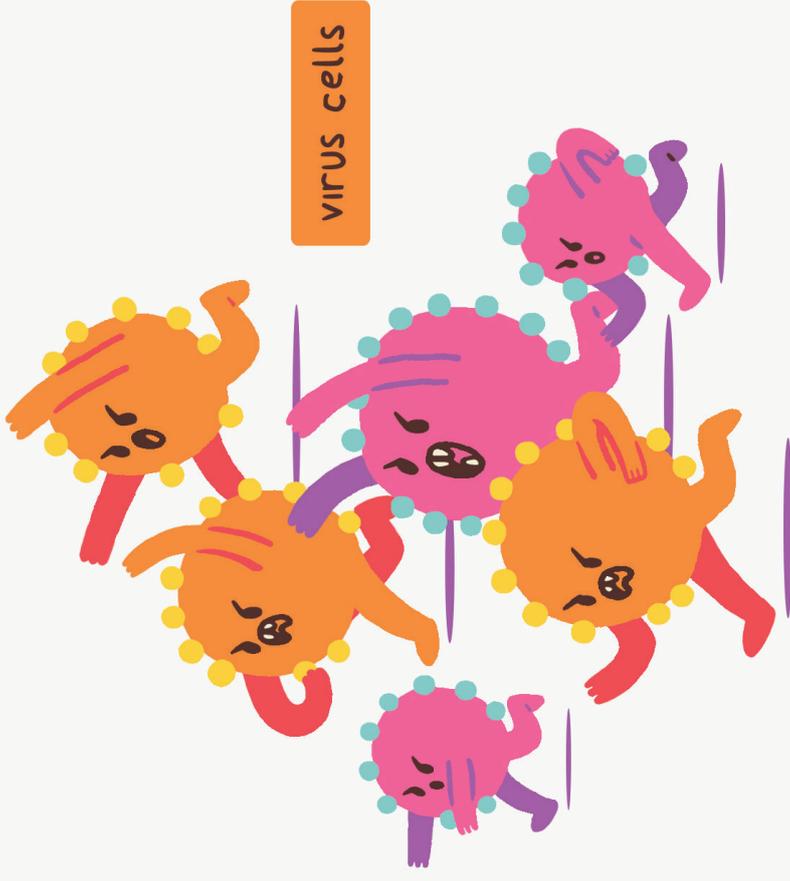

Microbes is a fun and educational book for children 6-7 years of age. It teaches the reader about different types of microbes with engaging playful illustrations and easily digestible information.

Bacteria can survive in a variety of habitats such as soil, rock, seas, and arctic snow. Some exist in or on other living organisms such as plants and animals, even humans! In fact, there are roughly ten times the amount of bacteria cells to human cells in the human body.

"Chin-Ups" (2016, range of twenty greeting cards)

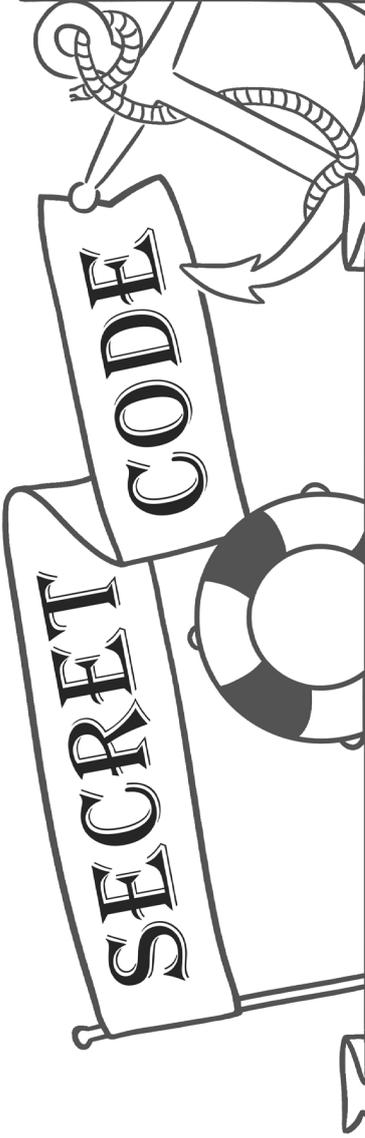

Chin-Ups were showcased by Star Editions at this years Progressive Greetings Live, the only international greeting card show in Europe.

“Christmas Greeting Cards” (2015, greeting cards)

I design and hand-create my own greeting cards and envelopes that I sell through Etsy. These two cards were part of last year’s Christmas greeting card range.

"My Style" (2016, A3 colouring and activity sheet)
This activity sheet includes designs for the user to colour in, as well as themes to encourage them to create their own designs.

"Clayplaylondon Logo" (2016, logo design)

I was approached by Clayplaylondon to create their logo. Clayplaylondon offers ceramic workshops and classes to all ages in Greenwich, London.

"Bespoke Wedding Stickers" (2016, painted designs on stickers)
I was commissioned by Itsy Wedding Favours to create five wedding themed designs to be painted directly on to stickers. The client wanted to offer examples of bespoke wedding favours that a customer could order from their website.
